Manual

Durable Speed
Performance rated PU wheels on the Fliker C5 create speed, while keeping you in control.

Take It With You
The Fliker C5 features a twist and stow folding system to carry when not in use, and store when transporting.

Flex Technology
A lean to steer system makes it easier to perform stunts and complete quick maneuvers.

Safety First
A quick response brake allows total control over speed.

Specifications

Description

Looking for a more exciting ride than a regular scooter? The Y Fliker C5 is the most advanced scooter in our Carver range, packed with clever add-ons and FLEX technology to make it easier than ever to pull off insane stunts and rolling wheelies!

Just like a downhill skier, simply twist your hips and push down through your legs to reach top speeds of up to 25 km/h. The stable frame and lean steering make light work of power carving and 360-degree spins. Fold it up and take it wherever you go!

+9 **Years**
220lbs/100kg **Max. User Weight**
