### Suspension System

The S200 features a front fork suspension system, to take away the bumps and shocks of your commute.

### Adapts to You

Adjustability in the handlebar height allows the S200 to suit a wider range of users.

### Take It With You

The S200 folds down flat so its easy to carry when not in use, and store, in the office, on the train or at home.

### Safety First

The S200 has both a rear foot brake and handlebar brake, meaning you are in control always.

## Specifications

### Description

The YvolutionS200 is a full-size scooter built for today's urban environments. With it's large radius, smooth wheels, it glides over city streets and with a ultra-light frame, it folds up so you can take it on the train or bus with you.

Two braking systems adds safety and redundancy to the scooter, ensuring safe stopping in any weather and on any road condition. Front wheel suspension, ergonomic handlebars and large wheels increase the comfort for an everyday, easy ride.

Available in 2 vibrant colours, you will be sure to stand out on your morning commute, trip to town or wherever it takes you.
