**Multiplay  
Modes**

### For parents

An adjustable height handlebar and 360 front wheels allow for ease of movement.

### For Older Kids

The Glider Luna features a standalone Glider for the older kids, complete with lean to steer and LED wheels.

### For Young Adventurers

A child controlled ride on mode allows them to explore independently.

### Neat and Tidy

The Glider Luna features built in storage for all their toys and makes travelling a breeze.

## Specifications

### Description

Designed with child-centric ergonomics and safety in mind, this ride-on / kids scooter with light-up wheels was designed to provide versatility, safety, and a unique visual design.

With a unique tool-less design, you can convert easily between 3 modes as below:

**MODE 1 - RIDE ON WITH PARENT HANDLEBAR** - The first modes of the Y Glider Luna feature a multi-functional ride-on, with a sturdy seat, removable parent bar, caster wheels, and a removable storage drawer that nestles under the seat.

**MODE 2 - KICK SCOOTER** - Removing the seat reveals our new Y Glider Nua scooter with intuitive lean-to-steer mechanism, LED wheels, grippy reinforced footplate and adjustable handlebar that grows with your child.

**MODE 3 - INDEPENDENT STORAGE** - Once the seat is removed for the Scooter mode, it turns into an independent storage unit where your child can store their favorite toys.

10 Months - 3 Years

110lbs/50kg Max. User Weight

Net Weight: 4.5kg
