Lights The Way

Self powered LED wheels on the Glider Kiwi adds to the vibrant style of the scooter.

Take It With You

A quick release mechanism on the Glider Kiwi allows for quick folding and storing away.

Safety First

The Glider Kiwi features a wide rear footbrake for ease of use and total control and safety.

Built For Little Hands

The handlebar grips are ergonomic and soft, perfect for hours of use by little hands.

Specifications

Description

The Y Glider Kiwi combines the fun of regular scooters with a patented design that helps kids develop their motor skills and balance. The innovative design makes it easier to balance right away, helping them to focus on steering.

To help your little one get as much use out of their Y Glider Kiwi as possible, we've designed it with an easy release adjustable handlebar. This means that you can adjust the scooter as your kids grow! Plus, the ergonomic handle grips are perfect for those tiny hands, ensuring that riders can keep a firm grip when they hit the streets.

With a wide rear brake and wheel, the Kiwi design makes easier for your kids to stop when they need to; and the extra wide deck for side-by-side foot placement also means that they'll have an easier time balancing.

3-8 Years

110lbs/50kg Max. User Weight
