Manual

No Batteries Needed

The Glider Air has two LED self powered light up wheels, designed for kids with style.

Adapts to You

Adjustability in the handlebar height allows the Glider Air to suit a wider range of children.

Take It With You

The Glider Air folds down flat so its easy to carry when not in use, and store when transporting.

Safety First

The Glider Air features a wide foot brake, allowing for easier stopping and control.

Specifications

Description

The Yvolution Y Glider Air with LED Wheels is designed for kids with style. Using the Pull and Fold system, the handlebars fold down to a folding position for easy carrying. This is also handy for fitting in the car or propping up by the back door. The handlebar height can be adjusted to 'evolve' with your child, ensuring the best fit for children from 3 years old. The Y Glider Air comes with a sturdy dual-color deck and LED wheels that flash as you ride—no batteries required! The scooter is made with lightweight materials that make it easier for a child to carry around.
